## Profile

Experienced Full Stack Software Engineer proficient in HTML/CSS, JavaScript, Angular, Node.js, Python, React, and AWS. Seeking a challenging position as a Software Engineer.

## Work Experience

📅 10/2023 – PRESENT

### Full Stack Software Engineer Freelance

- Developed scalable and efficient web applications using modern technologies, such as React, Node.js, PostgreSQL, Python, and Django.
- Collaborated with cross-functional teams to design and deploy RESTful APIs, ensuring seamless integration of frontend and backend systems.
- Conducted thorough code reviews and implemented best practices, enhancing code quality and maintainability across the development team.

📅 04/2022 – 9/2023

### Senior Front End Engineer Adia

- Worked as the lone front end engineer at the company to successfully deliver a complex web application and design library, meeting strict deadlines and exceeding client expectations.
- Optimized legacy application performance by implementing innovative solutions, enhancing user experience on all devices.
- Collaborated with product managers and UX designers to create responsive and intuitive user interfaces.

📅 12/2020 – 05/2022

### Software Engineer II SonderMind

- Developed efficient software solutions, improving performance and enhancing overall user experience.
- Conducted rigorous code reviews and implemented robust testing strategies, ensuring high-quality and bug-free software releases.

📅 9/2019 – 11/2020

### Software Developer Charles Schwab

- Developed and implemented scalable software

## Work Experience

solutions utilizing agile development methodologies, and contributing to increased efficiency and productivity.

- Executed full stack work within the Salesforce environment, building UI components as well as writing the back end code to supply those components with data.
- Mentored and coached junior developers, providing guidance on best practices, code reviews, and technical problem-solving, fostering team growth and enhancing overall development capabilities.

📅 06/2019 – 08/2019

### Salesforce Administrator Apto

- Successfully implemented and customized Salesforce CRM for many clients, resulting in a great increase in efficiency and productivity.
- Developed and maintained user profiles, roles, and permissions, ensuring data integrity and security across the organization.
- Collaborated with cross-functional teams to identify and implement system enhancements, such as automation workflows and custom reports, to streamline business processes and improve data analysis.

📅 02/2019 – 07/2019

### Contract Developer Particle41

- Developed and implemented responsive web designs using HTML, CSS, JavaScript, and React to create visually appealing user interfaces.
- Collaborated with cross-functional teams to design and enhance user experiences.
- Optimized website performance by analyzing and refactoring code, resulting in improved load times and decreased bounce rates.

📅 07/2017 – 01/2018

### Web Developer Lifesparq

- Developed and implemented responsive website designs using AngularJS and Node.js to enhance user experience and optimize performance.
- Collaborated with cross-functional teams to design and develop user-friendly interfaces for web applications, ensuring seamless integration and

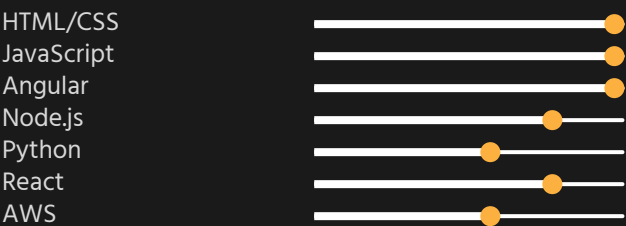

Work Experience

- functionality across different browsers and devices.
- Conducted thorough testing and debugging to identify and resolve technical issues, improving website functionality and ensuring optimal performance.

12/2013 – 06/2016  
Genius Bar technician  
Apple

- Resolved technical issues and provided comprehensive troubleshooting support to customers at the Genius Bar, ensuring optimal functionality of Apple devices.
- Conducted in-depth diagnostics and hardware repairs, performing efficient component replacements and upgrades to enhance device performance.
- Educated customers on the latest Apple products, software updates, and features, imparting expert knowledge to improve their overall user experience.
